## GIFT BUYERS THROWN BUSY LIMA STORES

Belated Christmas Shoppers In Saturday Rush as Holiday  
Nears—Buying Heavier This Year Than Last  
Stated

With Lima stores packed early Saturday morning by Christmas shoppers, merchants generally predicted that this day will stand out as one of the best sales days in the history of the city.

People are mindful that a week from today is really Christmas, and the fact that this is the only remaining Saturday before the gift-giving day makes shoppers eager to get their gifts.

One merchant, in commenting on the day's business said he was pleasantly surprised as it is his belief that more buying is being done this year than last, when business men contributed the great buying to an abnormal year.

Due to the exceedingly mild weather for this time of the year until very recently people held up their buying of gifts until the last minute. Last year the rush began a week earlier than this year, and a week before Christmas the biggest part of gift givers had completed their shopping, merchants say.

The majority of shoppers during the day were farmers, who drove to town early to void the day's rush. During the afternoon Lima people got busy and added to the congestion in all the stores.

Dealers in electrical supplies say that this is going to be a record-breaking year for them. People, they say, want to give electrical gifts and they that are swamped with demands for such articles as electric irons, heaters, vacuum sweepers, etc.

During the coming week merchants are anticipating a riot of buying. Each night the stores will be open until 9 o'clock, to accommodate those who are busy during the day and unable to do their buying at other times.

The postoffice was the center of a galaxy of gift-givers all day Saturday and long lines of persons awaited their turn at the parcel post window.

Postmaster James Sullivan says the real holiday rush has begun and an extra corps of workers has been added to help handle the steady stream of incoming and out-going mail.

Sullivan is taking every advantage

of opportunity to avoid a congestion which will hamper the speedy delivery of packages.

An extra force of clerks was on duty Saturday in practically every store in the city. Purchasers were given the best possible service.

The square was a "field" of automobiles. All parking zones were filled and also those on Main-st and side streets were packed with autos.

1 KILLED, 3 HURT

Interurban Car Crashes Into  
Auto Party at Canton

CANTON, O.—A Canton-Alliance interurban trolley car struck an automobile at a crossing in this city early Saturday killing one man and injuring three others.

John Schiopota, 31, restaurant owner, and driver of the automobile, was fatally hurt, and City Detective Otto Hamlin seriously injured. Detective A. T. Weidman and Dan Rector were hurt but not seriously.

The police officers were returning from investigating a robbery at Schiopota's restaurant at the time of the accident.

### ASSEMBLY MAY END TODAY

Geneva Convention Cleaning Up  
Unfinished Business

GENEVA.—(By Associated Press.)—Certain questions affecting international relations coming within the jurisdiction of the League of Nations have been reserved by China for a more opportune occasion for bringing them to the attention of the council or assembly of the league, Dr. Wellington Koo, Chinese delegate to the assembly, declared at Saturday morning's session of the assembly.

The agenda for Saturday promised to be very heavy, including the question of responsibilities of the League for mandates over former enemy territories. An effort was made to dispose of that question Saturday morning, and it was hoped that the report from the Armenian committee might also be acted upon.

This program, if carried out, would leave the afternoon session for cleaning up miscellaneous unfinished business and the ceremony of closing the session of the assembly.

Representatives of Austria, Bulgaria, Luxembourg, Albania, Costa Rica and Finland, which have been made member of the league, had seats in Saturday's meeting, but did not participate in the proceedings.

It was impossible to secure the proper credentials in the short space of time which has intervened since these nations were accorded membership.

Jewelry Salesman Robbed While  
on Way to Columbus

COLUMBUS.—(By Associated Press)—Diamond rings and unmounted gems worth approximately \$20,000 were stolen from Alvin Bernstein, Chicago jewelry salesman, while he was asleep in a berth on a train from Chicago which arrived here at 8 o'clock Saturday morning, according to his report to the police.

Bernstein said he placed the package containing the jewels beneath his berth before the train left Chicago.

He discovered the loss, he said, while the train was passing Plain City. A search of the train by police failed to reveal the missing case.

### GAS SUPPLY SOON TO BE NORMAL

Producing and Distributing Com-  
panies Reach Agreement

### STATE COMMISSION ORDER

City Files Amended Petition in  
Suit Saturday

A plentiful supply of natural gas for Lima consumers is expected from the Medina field soon, probably by Saturday night, an agreement having been effected late Friday afternoon between the Lima Natural Gas company and the producing company in the Medina field, in the matter of rates and metering, which was followed by an order from the public utilities commission of the state, at Columbus, to the Medina company, to afford an adequate supply of gas for Lima at once.

### GOOD PRESSURE SOON

Owing to the fact that the gas supply has been limited during the past three weeks, at least 48 hours is required to bring the pressure back to normal, company officials stated.

By telephone, representatives of the Lima company and Mayor Burkhardt arranged an agreement with officials of the Medina company, after Judge William Klinger late Friday sustained the demurral filed for the Medina Gas and Fuel company by Attorney Hinckle, to the petition of the City of Lima, asking for an order that the latter company must maintain a four-ounce gas pressure.

Thus the producing company was released from the liability in the gas controversy so far as the local suit was concerned. This was followed by a cross-petition filed by the attorneys for the Lima company,

asking that a permanent injunction be issued against the producing company, ordering that Lima be supplied with sufficient gas.

### PRODUCER AGAIN INVOLVED

This gave the case a new turn and again involved the Medina company. An agreement was soon entered into and all gas litigation was practically dispensed with.

Permission was asked by the attorneys for the City of Lima to file an amended petition, which was forthcoming Saturday morning. City Solicitor Garling stated that while under the circumstances, there is practically no necessity for the filing of an amended petition, since an adequate gas supply is assured, it serves to keep the case in the courts in event a supply is not afforded as ordered.

By the terms of the agreement perfected by the distributing and the producing company, with Mayor Burkhardt, designated by the court to represent the city, the Lima company is to pay 30 cents per 1,000 feet for gas metered at the city limits of Lima, instead of on the percentage basis of money collected for service, as heretofore.

The local company is required to stand 90 per cent of the losses that have heretofore been borne by the producing company, as a result of leakage, etc.

The order of the utilities commission was issued after an application was filed by the Lima company, asking that the Medina company be required to furnish adequate service. The commission's order is effective until January 13.

### BREAKS JAIL, GOES HOME TO SPEND CHRISTMAS WITH FAMILY, SEIZED

CLEVELAND.—Joseph Chacko, state penitentiary trustee, about to be paroled, who broke jail at Columbus November 5 and walked to this city to be with his family for Christmas, was arrested here and will be taken back to Columbus Saturday. Chacko had no money and was garbed in prison uniform, making it necessary for him to hide during the day and walk the railroad tracks at night.

### LANDSLIDES ADD TO RUINS

Commander and Daughter Die  
as Home is Buried

ROME.—(By Associated Press)—New earthquake shocks have completed the destruction of the Albanian village of Tepeleci, 32 miles southeast of Avlona, according to reports from Brindisi. Twenty-two persons are known to have lost their lives.

Exact details of the situation have not been learned, owing to the interruption of communications between Avlona and the stricken village. Serious earthquakes took place in the Tepeleci district early this month, an area of forty square miles being shaken and many villages reduced to ruins.

### TIDAL WAVES

Advices state that Commander Paglino, his two daughters, 17 years old, and two non-commissioned officers lost their lives on the island of Sasevo, at the entrance of the Bay of Avlona, where the latest earthquake took place.

The tremor was accompanied by a tidal wave and landslides buried the house in which the commander lived. It is said the hospital on the island of Sasevo has disappeared.

STEAMER POUNDING TO PIECES ON CUBAN ROCKS

HAVANA.—Reports from the steamer San Pablo, a United Fruit Company liner which went aground at the entrance of Havana harbor last Tuesday evening show the vessel is in a precarious position. It is said her hull has been pierced and she is slowly filling. The crew of the San Pablo is still on board, but a launch from the Cuban cruiser Cuba is standing by to render assistance should a severe storm begin.

A peculiar coincidence has been pointed out in connection with the stranding of the San Pablo. Several vessels have been wrecked in the jagged rocks where the San Pablo is believed to be pounding to pieces, and it is declared that all these vessels have borne the names of saints. One of them, the San Antonio, was sunk some years ago, and her wrecks may still be seen on clear days.

### HARDING CONFERS WITH REED

Democratic Senator is Again Called to Marion

MARION.—(By Associated Press) In another set of conferences Saturday President-elect Harding heard advice on the two subjects which for the present bulk largest in his mind, the choice of a cabinet and the formulation of a plan for world peace.

On the proposal for an association of nations, which has taken more definite form as a result of his consultations here, he again conferred with Senator Reed of Missouri, a Democrat, who has been a bitter opponent of many of President Wilson's policies and who took a leading part in the fight of the senate irreconcileables against the Versailles league.

Senator Reed came to Marion Friday night at Mr. Harding's invitation and the talk began then was continued Saturday.

Another on the president-elect's appointment list was Dr. Nicholas Murray Butler of New York, a student of international law and an advocate of ratification of the Versailles treaty with reservations. Dr. Butler's call also was arranged at Mr. Harding's request to discuss a peace plan.

Harry M. Daugherty, pre-convention manager for Senator Harding, and since the Chicago convention one of his closest advisers, and Senator Harry S. New of Indiana, in charge of the Republican speakers' bureau during the campaign, were callers whose conferences were understood to concern cabinet appointments and other subjects of policies as well as the peace plan. Both have been mentioned as possible cabinet members but Mr. New's friends have indicated that he prefers to remain in the senate.

TRAIN HOLDS UP FIRE TRUCKS MAKING RUN TO RESIDENCE FIRE

One of Fire Chief Mack's systems of answering a fire alarm proved its worth Saturday morning when the apparatus at Central headquarters was held up for more than 15 minutes at the High-st crossing of the B. & O. railroad by a long freight train, while answering an alarm at the home of Clark Hale, 616 N. Jackson-st.

While the Central trucks were blocked, the apparatus from the South Side and East Side departments were on their way and had had the fire extinguished before Chief Mack and corps of laddies arrived.

Sparks from the chimney ignited shingles on the roof. The damage was small.

RANGE TOO CLOSE TO FLOOR, FIRE CAUSE

Fire Chief Mack Saturday morning warned people who are using coal ranges to have them elevated at least two inches from the floor, following a fire at the home of R. L. Leist, 1529 S. Main-st, when a range not elevated from the floor became overheated and ignited the boards underneath.

According to Chief Mack, this is a dangerous practice and numerous fires are found to having been caused thru this neglect.

The damage was small at the Leist home, due to the fact that the department was at work before the flames had gained much headway.

DOVE TRUCK FAST AND RECKLESS; IS FINED

Herbert Simmons, 21, colored, of 1222 W. North-st, pleaded guilty to a charge of fast and reckless driving when arraigned before Judge Emmett Jackson in criminal court Saturday morning.

Sergeant Eberle arrested Simmons on E. North-st, between Main and Union-sts, late Friday afternoon when he was speeding the truck which he was driving at about 30 miles an hour, according to the officer.

In finding Simmons \$5, Judge Jackson warned him that the next time he was arrested on such an offense he would be given the limit.

A speeding truck, Jackson says, is the most dangerous vehicle on the street.

### SPLENDID NATIONAL ASSETS

AMERICAN navigable waterways constitutes A of the nation's greatest assets, says The Cincinnati Enquirer. The carrying forward of river and harbor improvement is of highest importance to the national commerce, domestic and foreign. In this improvement, the man on the farm, the man in the mine, the merchant and manufacturer each should be intensely interested.

A billion dollars, from first to last, has been expended on the national rivers and harbors. Big sum? Yes, but rather insignificant when compared with the \$28,000,000,000 we recently spent as the price of our entry into the World War.

What would not a half, a third, a quarter of twenty-eight billions of dollars do for the rivers and harbors of America? Such expenditure in a constructive work of peace such as the capacity improvement of all possible inland waterways, by comparison, would make the commerce of Babylon, Egypt, Rome and the combined foreign commerce of modern times appear the negligible trafficking of petty traders.

Without going extensively into the matter, a brief consideration of the survey made by the Mississippi Valley Association will disclose the tremendous importance and potential possibilities of the Mississippi Valley as an area of production. According to this careful survey this wonderful valley, veined by the Father of Waters, and its tributaries, produces 75 per cent of the wheat, 60 per cent of the bituminous coal, 47 per cent of the lumber, 70 per cent of the cotton, 55 per cent of the wool, 69 per cent of the petroleum, 94 per cent of the iron ore, 85 per cent of the hogs, 52 per cent of the sheep and 74 per cent of the cattle. It includes 26 cities, each with a population in excess of 100,000, and has a total population of about 7,000,000. In this territory are to be found the largest iron and steel producing centers in the country. It is the center of the packing industry. It is one of the largest builders of locomotives, passenger and freight cars. But the industrial development of this splendid region of incalculable wealth is retarded by reason of the lack of adequate and cheap transportation facilities. These facilities by rail and water, especially by water, must be provided and utilized if America hopes to hold her foreign trade, to say nothing of the proper and cheap transportation of inland domestic commerce.

### THE BEST WAY TO PEACE

THERE are two schools of thought in the world, says the Dayton News. The one maintains that only thru strong armaments can the peace of the universe be maintained. The other contends that reduced armaments point the way to everlasting amity. Since these two schools of thought are diametrically opposed, except for the one avowed purpose of bringing peace, it is of interest to follow the trend of thought as developed by each. General Tasker H. Bliss declares that there will never be any such thing as disarmament in the world until the United States leads the way. He probably is right. We go right ahead with our program. Secretary of the Navy Daniels says it is necessary so long as we remain out of the league and foster a spirit of isolation. General Bliss goes a step further in his survey and says: "We shall be recreant in our duty to humanity if we do not take the first step." While America figures on a greater navy and

## BUY TWO WORDS IN THESE COLUMNS

an enlarged army, Japan quite frankly says she will not disarm nor take any step in this direction until the United States shows more of a spirit of conciliation.

The treaty of peace laid upon Germany the duty to disarm, and yet these very powers which so arbitrarily insisted upon disarmament from the fallen foe, themselves refuse to take the same step. It is little wonder that the Berlin authorities approach the subject of meeting the peace requirements when they possess the almost certain knowledge that other nations do not propose to follow a similar course.

The school of thought which maintains that peace will be more easily attained with nations armed to the teeth provokes legitimate discussion of the subject and finds its position less secure when it confronts the history of autocratic Germany, armed to the teeth and prepared for war. Individuals who have gained success in chosen fields are less apt to be sympathetic with the less fortunate, than folks in moderate circumstances whose position is less tenable than the ultra-successful. So, too, with nations. The powerful fleets and armies of European countries speak for war, not for peace.

Switzerland has no navy, and no need for one. Her army is of such a character that it does not molest anyone. Neither does Holland's, and no one conceives that either Switzerland or Holland is prepared or anxious for war. It is only the nations which are unusually well prepared which are feared. The anxiety of the ages between one power and another has grown out of undue military preparation. If the Allies had not considered Germany's military machine a menace to world peace there would have been no demand for reduction under the peace terms. And yet the Allies themselves, with certain knowledge of the menace, refuse to take the lead in removing it. The matter of disarmament is an important step in the direction of permanent peace.

### BLAME SCHOOL OFFICIALS

THAT thousands of children who cannot read or write, many of them American born, are not in school today is due to gross neglect on the part of school officials, Vernon Reigel, state superintendent of public instruction, said in an address before the Americanization congress at Columbus.

Reigel sounded a warning that unless something is done there will be thousands of the next generation growing up in ignorance. The state school head advocates an adequate compulsory school attendance law and an act requiring physical education of children. Need of such a law was emphasized, he said, during the draft, when it was found that one out of every four of our boys was turned down because of physical defect.

Reigel's arraignment of school authorities is severe. Whether altogether justified, is another question. In any event, his charge, coming to the attention of educators, will likely at least create a stir and bring about inquiry for the purpose of disproving or substantiating the charge.

If disproven, satisfaction of a complacent nature will prevail, but if it is found that Reigel's contention is correct, such steps as are required to correct the condition of affairs should and probably will be adopted quickly.

## PRODUCE REVIEW

(By Swift and Co.)

Butter prices steadied during the last week. Lower prices being asked by retailers have increased consumption. The cooler weather also has made better trading and the supply continues heavier than during the same period last year.

Poultry prices at consuming centers have shown some weakness, in line with lower prices on other food products. The movement from the farms, however, has been normal at steady prices. Prospects are that the demand for dressed poultry will not be moderate for some time.

Fresh eggs are moving in larger quantities throughout the country, due to the mild weather, and with prospects for continued favorable weather, receipts will naturally show further increase, and markets should work much lower.

BRINGING UP FATHER—

By McMANUS

## SHORT SHAVINGS

A pretty girl at an evening party was bantering a genial bachelor on his reasons for remaining single.

## GERMANS REVEAL WAR DEBT PLAN

Allies Listen to Pay Scheme at Brussels Conference

"No-no, I never was exactly disappointed in love," he said. "I was what you might call discouraged. You see, when I was very young I became enamored of a young lady of my acquaintance. I was mortally afraid to tell her of my feelings, but at length I screwed up my courage to the proposing point, and said: 'Let's get married.' And she said, 'Why, what have we?'"

They were very young and very happy, and very foolish and very giddy. And they had a garden. "Angelina, darling," said the youthful husband, "as I was passing thru the garden I saw some bacon hanging for cooking. Perhaps you'd like to go out and get the first fruit of the season yourself?"

She would love to, but she wasn't expert in horticulture and didn't want to let on. If she went alone she might commit some egregious blunders.

"I tell you what, Edwin," exclaimed the girl wife enthusiasmically, "we'll go out together. You shall pluck and I will hold the ladder."

The following amusing incident occurred at a hairdresser's in a small town in Lancashire.

Customer—Well, Seers, what did you think of me?"

Barber—Yes, sir, I was there, but to tell the truth, the old man sat in front of me who'd been wanted cutting so badly that I couldn't hear a word.

NOTICE TO NON-RESIDENT LAND OWNERS  
Auditor's Office, Allen County, Ohio, November 30, 1929.  
In the Matter of the Joint County Ditch Improvement No. 16, Putnam and Allen Counties, Ohio.

You and each of you, are hereby notified that on the 15th day of Sept. 1920, the above named petitioner filed a petition in the Court of Common Pleas for the CLEANING OUT AND REPAIR OF a ditch, the general location of which is as follows:

Commencing at the point five (5) rods South and Fifty (50) rods East of the Northwest Corner of Section Eighteen (18), Township Two (2) South of Range Seven (7), East Monroe Township, Allen County, Ohio, in a general Northwesterly direction to the North Side of the East and West Road, between Sections Seven (7) and Eight (8), thence North, then turning thence West to the County Line Road, between Allen County and Putnam County; thence North on the East side of said County Line Road, then turning thence North, then turning thence North, into what is known as the Alligare Ditch.

It is claimed the improvement will affect property owned by you.

For All the Petitioners Notice that the County Commissioners of Allen and Putnam Counties have fixed the 23rd day of December, 1929, at 10 o'clock A. M., for a hearing on the petition at the office of the County Commissioners of Allen County, in Lima, Ohio.

## CANINE LOCKLEAR OF AIR MAKES 3,000 FEET DROP BY PARACHUTE

SAN ANTONIO, Texas — "Bing," the dog aviator of Kelly Field has made his first parachute jump from an airplane. He has beaten all other canine dare-devils in taking what aviators say is the supreme thrill, a drop of 3,000 feet by parachute from an airplane speeding at 95 miles an hour.

And "Bing" enjoyed it. All the way down he zig-zaged his three-inch stump of tail as if trying to steer the swaying parachute, and as soon as he landed on the field and was removed from the harness he got into a peach of a fight with a German pointer dog. "Bing" showed no signs of air sickness, either for the way he mopped up the German muds that Teuton war dog think he was back in the trenches.

"Bing" is a bull terrier and the mascot of Air Service Mechanics' School at Kelly Field. Lieutenant Joseph Stromme is his owner, and in pursuance to an order of sale of the Probate Court of Allen County, Ohio, I will offer for sale, at public auction at the court house, the property in the said county, on Monday, at 10 o'clock A. M., the following described real estate located in Lima, Allen County, Ohio, to wit:

Sixteen (16) feet and eight (8) inches off of the North part of lot number Twenty Two Hundred and Seven (2207), and one (1) foot and eight (8) inches off of the South part of lot number Twenty Two Hundred and One (2201) in Robb and McClellan's Addition to the City of Lima, Ohio, and being approximately 2686 North Eleventh Street.

Appraised at \$2600.00.

Terms of sale: One-third cash, one-third in one year, and one-third in two years, first year with interest, payments to be secured by mortgages on the premises sold.

J. T. Longsworth, Attorney.

W. R. Bishop, Administrator of Emma Mahan Decedent.

WYANDOT, HANCOCK AND ALLEN  
COUNTIES, OHIO

Commissioning at the west corporation line of the Village of Upper Sandusky, south side of Section 28, Richland Township, also at the county line between Hancock and Wyandot Counties, thence continuing westward about 18 miles to the southwest corner of Section 28, Richland Township, Hancock County and the county line between Hancock and Wyandot Counties; thence continuing westward through the Village of Beaver Dam and West Calico to the intersection with Inter-county Highway 12, Section 28, Richland Township, Allen County, thence northwardly through the Village of Gomer to the intersection of the Findlay-Defiance Road, I. C. H. No. 132, northwest corner of Section 28, Sugar Creek Township, Allen County.

Neighbors assisted Furry at corn husking during the day, leaving at 5 p. m. Furry climbed into the haymow, presumably to pile fodder away, and was stricken suddenly by organic heart trouble. He was found

soon afterward by his sons, born in Fairfield-oh in 1855. Furry leaves his widow, seven sons and three daughters. Charles, Floyd and Harry Furry reside in Lima; John at Wren, Van Wert-oh; Roy at Elida; William and Robert are at home; Miss Lena Furry and Mrs. Elsie Basinger in Lima; Miss Myrtle Furry at home, Mrs. Susan Miller of Lima; and Mrs. C. C. Morris of St. Marys, and sisters.

CARD OF THANKS

We wish to thank our friends and neighbors for their kindness during the illness and death of our father from the shoulder. Dr. Swift prom-

ises anything but a dull time for the

and grandfather; T. F. Tromblia.

Mr. and Mrs. M. P. Griffith, men. Masons will attend in a body.

## THAT'S DIFFERENT

## FATHER TO SON

One of the best gifts you can make to your son is a savings account, in his own name, and presented Christmas morning. You may start such an account for him with any amount from one dollar up, as high as you wish.

It will give him a desire to add more and the gift will be remembered long after most other presents are forgotten; it will be a part of his education; it is a character builder.

The Allen County Savings and Loan Company, in the Savings Building, Corner Market and Elizabeth Streets, will be glad to have you call and learn more about the plan.

Five per cent interest paid on deposit. Safety first, and all the time.

HOW HE ENDED KIDNEY TROUBLE  
"I had a severe attack of kidney trouble for three weeks, could not get out of bed, and gradually grew worse," writes C. E. Brewster, Village Springs, Ala. "Could not bend over at all without the most excruciating pain. I purchased a bottle of Kidney Cure. I was relieved after first few doses and continued their use until completely cured. I consider Foley Kidney Cure the best remedy for kidney trouble or recurrence of my trouble. Char. Vortkamp, Main and McKibbin, Ady.
